

Perfectly linked for your success

Chain drive components from INA.

SCHAEFFLER

FAG

Competence and components from a single source.

In addition to the best quality, you can count on one thing above all when it comes to our chain drive components and kits: You get everything you need for a fast and smooth repair. That's because our intelligent kit solutions and individual components have been specially developed to be perfectly suitable for any type of repair.

When it comes to chain drives, we have everything at hand:

- Chains
- Slide and guide rails
- Hydraulic and mechanical tensioners
- Sprockets
- Gaskets
- Complete chain drive kits

The links in our chain of success at a glance.

All of our kits and components are perfectly coordinated with each other – and offer your customers an entire range of benefits in terms of installation and service.

The benefits:

- All components from a single source
- Incl. all the necessary mounting and sealing materials
- High market coverage
- Special tools for specific applications
